Challenges

COVID-19

Reprioritisation
of resources

**“No decision
about me,
without me”**

Cancer falls lower in
the gov't's health
priority ladder

Late screenings, delayed diagnosis,
drop out of treatment, upstaging
cancer

Responses

Adapt coalition & alliance building messaging

Link cancer to COVID-19 vulnerabilities

Raise our voices

“No decision about me, without me”

Rebuild, strengthen and create new relationships, alliances among policy & decision makers

Thank You!
