# SEABCS 2021 KEY TAKEAWAYS

- Effective policy shaping
- Shared decision making
- Communication
- Multidisciplinary decision making
- Capacity building for HCPs
- Patient organizations in coordination with HCPs
- Support based on patient needs and preferences
- Health literacy – education is not enough, services need to be integrated into primary care
- Early detection
- Coalition building

# SEABCS Resolution

Strengthen our resolve to continue to work together to build capacity for cancer care and advocacy movements throughout the region.
